## **CLAIM AMENDMENT**

- 1-63. (canceled)
- (Currently amended) An isolated gamma coixin promoter, wherein the promoter 64. comprises the nucleic acid sequence of SEQ ID NO:8 or a fragment comprising at least about 80 nucleotides thereof having promoter activity.
- (Previously presented) The isolated gamma coixin promoter of claim 64, further defined 65. as operably linked to an exogenous gene.
- 66. (Previously presented) The isolated gamma coixin promoter of claim 65, wherein the exogenous gene is operably linked to a terminator.
- 67. (Previously presented) A fertile transgenic plant transformed with the isolated gamma coixin promoter of claim 64.
- 68. (Previously presented) The fertile transgenic plant of claim 67, further defined as a progeny plant of any generation of a plant comprising said isolated gamma coixin promoter.
- (Currently amended) The fertile transgenic plant of claim 67, wherein the plant was 69. regenerated from a cell transformed with said isolated gamma coixin promoter.
- 70. (Previously presented) An expression vector comprising the isolated gamma coixin promoter of claim 64.
